BSK1732 Bumper Bar Sensor Hole Drill Set - 7Pc

- ★ BTB's BSK1732 is specifically designed for punching holes into bumpers to mount parking sensors.
- ★ A gentle neat radiused edge is made by the cutter as it presses the hole out, which looks better than the sharp edge left by a step drill hole.
- ★ These bumper sensor cutters can be used before or after the bumper has been painted.
- ★ Can use a manual ratchet or a powered impact driver.
- ★ Includes the most popular sizes.
- ★ Comes in a sturdy plastic carry case.

Sizes: 17, 18, 19, 20, 21, 22 & 32 mm.
