About Us

ALP OZ are leaders in the manufacture of auto glass rubbers and tools, body shop tools, and industrial rubber products.

We are an Australian family owned company with over 60 years of hands on professional experience in the Automotive industry. Oz Auto Moulds began in 2001 focusing on supplying universal moulds to the windscreen industry. In 2018 BTB Auto Glass and Body Shop Tools was incorporated into our business growing our unique range of quality hand and power tools, as well as adding the BTB manufactured flexible adhesive cutting tools and blades which are exported worldwide.

Our Mission, Vision & Values

Our mission is to help, educate, and problem solve by listening to and understanding our customers' requirements, finding out what the industry needs most whilst delivering quality products at affordable prices.

ISO 9001 Certification

We are proud to have been accredited with the world's most recognised Quality Management standard – ISO 9001:2015. This ensures our products and services meet the needs of our customers, helping to improve the overall performance, maintain a high level of quality and provide strong customer service.

The benefits and advantages that flow to our customers as a result of our successful implementation of ISO 9001 include:

- ✦ better quality products and service
- ✦ More reliable delivery scheduling
- ✦ Mistake Proofing
- ✦ Improved communications
- ✦ Constantly improving on current processes
- ✦ Standards maintained by annual assessments.

Our Quality Policy

At ALP OZ Auto Moulds quality is an integral part of our business. We strive to achieve sustainable growth through consistently satisfying the diverse needs and expectations of our customers. Our aim is to provide products and services that meet or exceed expectations, deliver more value to our clients, responding to customers needs. We embrace new ideas, technology and innovation and strive for continuous improvement setting the bar high to maintain our strong reputation within the industry.

Industry Knowledge

With over 60 years hands on professional experience in the Auto Glass industry we are qualified industry experts providing training and technical support for the products we sell.

Extensive Product Range And Stock

Offering a comprehensive range of moulds, rubbers, specialised hand tools, power tools and accessory products, our warehouse carries over 2500 line items dedicated to Auto Glass and Body Shop specialists.

New Products & Continuous Improvement

ALP OZ Auto Moulds continuously review our range, working with our partners on new products to improve both our business and our customers' businesses.

With the growing relationships internationally we are regularly exposed to new technology, product improvements and new products. We have access to Australian and overseas facilities where we can design, test and create unique products to suit your business. Our sales team can work with you from beginning to end on your new product development projects.

Prompt Service & Delivery

We pride ourselves on our high level of customer service and prompt response to all product enquiries. We aim to send all orders out on a same day service if received by 3:00pm AEST.

To place orders please contact our customer service department on 03 9703 1522 or email orders to sales@alpoz.com.au.

Terms & Conditions

For full Terms & Conditions please visit <https://alpoz.com.au/terms>

All product returns must be approved prior by ALP OZ Auto Moulds and be within 14 days from receipt of delivery. Incorrectly ordered product returns may be subject to a restocking fee. Returned goods shall be in their original and unmarked condition, complete with any instruction sheets supplied. The following goods cannot be returned for credit under any conditions:

- Any goods specially made, including items cut to length
- Any goods used, altered or damaged by the purchaser
- Any goods having an invoice value of \$10 or less
- Any goods especially indented and which are not normal stock lines

All product returns must be freight prepaid by the sender.

All orders are to be prepaid unless trading terms are agreed prior by ALP OZ Auto Moulds.

Orders discrepancies must be reported to ALP OZ Auto Moulds within 3 days to ensure they are resolved ASAP.

The minimum order value before freight for non-account customers is \$50.

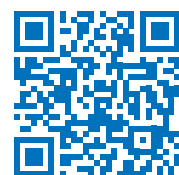

Any prices listed are for Trade Customers. Prices and availability are subject to change without notice.

The supply of items may vary from time to time from the actual images shown in this catalogue.

Any unauthorised copying, duplicating or transmitting of this publication or any part thereof is strictly prohibited unless prior consent is given in writing by ALP OZ Auto Moulds. Any infringement of copyright may be subject to legal liability.

The Professional Esprit Windscreen Chip & Crack Repair System

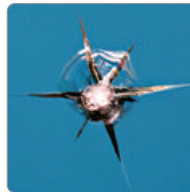

Esprit specialises in Windscreen repair systems and have over 35 years experience as a manufacturer

The Esprit Repair System is suitable for all types of repairs.

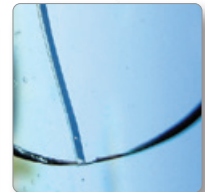

STAR CHIPS

BULLSEYES

LONG CRACKS

Using the Esprit Resin and Repair Kit together,

Australian Standard

Repairs are approved to Australian Standard AS/NZS 2366.2-1999

The Esprit Elite Kit Contains Everything You Need.

Self Levelling Bridge

Professional 12V Heater

240V Power Adaptor

One Universal Repair Resin

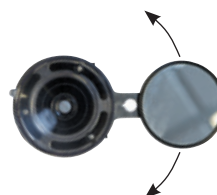

Quality 12V Drill

75 Second 12V LED UV Curing Lamp

Swivelling Inspection Mirror

LED Inspection Torch

Advantages of the Esprit System

- The system used by leading windscreen repairers worldwide.
- Supported and stocked nationally by ALP OZ / BTB Tools.
- Simple, fast, accurate, step-by-step setup.
- One quality UV repair resin for all windscreen repairs.
- Best quality, best value, don't settle for inferior copies.
- Designed for Leading Mobile Technicians.
- Approved to Australian Standard **AS/NZS 2366.2-1999**.
- The repair restores strength and optical clarity of the glass.
- 40 years development behind the Elite Repair Bridge.
- No risk of yellowing.
- Scan the QR Code for Online Training Manual and Videos.

DRK672 Equalizer Master Defroster Repair Kit

✦ Comes with everything you need to easily make dozens of repairs on damaged elements and tabs.
✦ Reattach or replace tabs - sand lightly to remove oxidation from the defroster grid then apply resin and hardener, attach the tab and let it cure, then you can reattach the lead wires.
✦ The solder in this kit is in a paste form so it can be placed on both the tab and grid, easily bonding together.
✦ Each kit contains a grid repair solution for those times when the electrical grid is no longer creating a circuit.
✦ The kit includes several types of replacement connectors.
✦ Neatly packaged in a compartmentalised plastic box.

Equalizer

ME3030 WindowGuard™ Emergency Protection Film - 91cm x 18m roll

✦ Perforated every 91cm
✦ WindowGuard™ protects the vehicle's interior until permanent replacement glass is installed

Rain Sensors

NEW

OZ-SFKIT-01 SENSORFIX Rain Sensor Grab Kit - 25 Pc

Our new Rain Sensor Grab Kit contains 8 of our most popular rain sensors, with 25 sensors in total.

Keep all your Rain Sensors in one place. Reorder your own most-used rain sensors and keep your kit topped-up ready when you need them.

Kit Contents:

- ✦ OZ-SF02 (5) ✦ OZ-SF06 (3)
- ✦ OZ-SF07 (2) ✦ OZ-SF08 (3)
- ✦ OZ-SF10 (5) ✦ OZ-SF11 (1)
- ✦ OZ-SF19 (1) ✦ OZ-SFAUDI (5)

NEW

RSL330 Rain Sensor Level

✦ The Rain Sensor Level creates a perfectly level surface to prevent spill-overs, providing a flawless rain sensor pad while using OZ-SF02 and OZ-SF03.

✦ A level surface is imperative when replacing gel rain sensor pads. If the dome of the gel rain sensor pad is uneven when reinstalled, it can affect how the angles of infrared light reflect when water droplets are on the windscreen.

OZ-SF01 Heater Box for Sensor Gel

Designed to improve curing times in cold temperatures. Speeds up curing time from 15 to 20 minutes when using OZ-ST02 refill.

The BTB Auto Glass & Body Shop Removal System

BTB's versatile, precise, efficient and user friendly system safely removes any adhesive bonded auto glasses, body panels or decorative mouldings without damage to component or painted panel while avoiding operator injury. This small, compact and powerful air tool operates blades to cut with precision from inside or outside of the vehicle, against the glass surface, or in the case of an encapsulated glass, the blades will safely cut away from the encapsulation and against the pinchweld or body panel.

Nylon control head & adjustable arms regulate cutting depth of all blades

PATENTED DESIGN

The short & fast in-line stroke of the BTB air tool gives unequalled, gentle & balanced cutting action

Registered and Pending Patents and/or Designs Extending Worldwide.

AUTO GLASS REMOVAL

BTB Long blades easily cut urethane below any dashboard.

Remove excess adhesive easily and safely.

Cut from outside the vehicle with BTB's Powered Cold Knife blades.

Short blades cut from inside the vehicle with precise depth control.

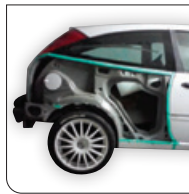

For curved glasses, thin flexible blades follow the contour of the glass.

Excellent for removal of small and encapsulated glasses.

Save and reuse any undamaged glass or encapsulated glasses.

BODY PANEL & BADGE REMOVAL

Powerful tool & strong blades cut tough adhesive to remove bonded body panels.

Recycle adhesive & tape fitted badges, mouldings & bump strips.

The BTB System range includes our **AIR-TOOL** 12V **E-TOOL** plus an array of General-Purpose and Application-Specific blades sold separately or in kits.

BUS, TRAIN & COMMERCIAL VEHICLE

Cut from inside or outside to reduce effort and removal times for large glasses.

Special blades remove backfill adhesive between glass edges and / or panels.

Safely remove adhesive bonded panels from buses and trains.

The full range and further details are available in the BTB Removal System catalogue or online at btbtools.com

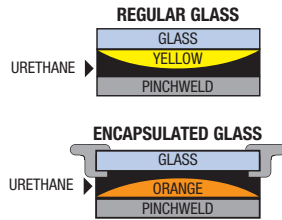

POPULAR

BTB Blades Explained

BLADE COLOUR CODING

Yellow Blades are designed to cut with the flat side of the blade hugging the glass surface.

Orange reverse blades are designed to cut with the flat side of the blade hugging the pinchweld and saving encapsulated glasses.

CUTTING BELOW DASHBOARD & HARD TO REACH AREAS

Long **Straight Blades** easily reach hard and wide adhesive on any vehicle make or model.

CUTTING FROM INSIDE VEHICLES

Short **Z Blades** are used for precise cutting along top / sides of glasses and easily accessible adhesive areas. Use **Orange** blades for encapsulated glass removal.

CUTTING FROM OUTSIDE VEHICLES

Powered Cold Knife Blades allow easy removal of glasses from outside the vehicle. They are safer and easier than manual cold / pull knives.

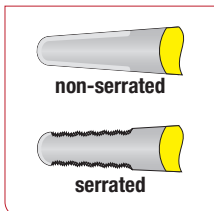

CURVED / CONTOURED GLASS REMOVAL

Flexible Blades cut while following the contour of curved glasses.

ENCAPSULATED GLASS REMOVAL

Orange Reverse Blades hug the pinchweld to remove and save undamaged encapsulated glasses for reuse.

PINCHWELD TRIMMING

WK6 winged non-scratch **Pinchweld Scraper Blades** allow easy and safe removal of excess adhesive. These are uniquely sharpened with a special wing on each side which leaves 1 to 2mm thickness of adhesive for re-bonding and eliminates damage to paintwork and vertical pinchweld walls.

SERRATED vs NON-SERRATED

Standard **Non-Serrated** blades can be used in all glass and panel applications. Special **Serrated** blades provide a faster more aggressive cut for glass removal by more proficient users.

CUTTING DEPTH CONTROL

BTB's fully adjustable cutting depth control arms ensure precise cutting depth to avoid contacting painted panels.

BTB Auto Glass Mobile E-TOOL Kits

ETK12TEC E-Tool™ Technician 11 Blade Auto Glass Specialist Toolkit

This comprehensive kit, designed for the Mobile Auto Glass Professional, contains a wider range of mostly serrated blades which are preferred for their faster cut-out times. Includes adjustable cutting depth control arms. Safely remove any bonded glass from any vehicle!

KIT CONTENTS:

Tool: E-Tool, 12V Battery in Carry Bag, Charger

Blades: WK1-S, WK2-S, WK4-S, WK4R-S, WK4Z-S, WK4ZVR-S, WK24Z, WK24-S, WK27M, WK28M, WK6-M

Cutting Depth Control Arms: WK11AW, WK11BW5, WK11CW, WK11EW, WK11FW

Accessories: WK7, WK7L, WK8DSM, WK9, WK9B, WK11VEL, WK20, WKGA

ETK12CLS E-Tool™ Classic 7 Blade Auto Glass Specialist Toolkit

This Mobile E-Tool kit contains an assortment of serrated & non-serrated blades to easily remove modern vehicle glasses, including laminated & encapsulated style glasses. Includes adjustable cutting depth control arms.

KIT CONTENTS:

Power Tool: E-Tool, 12V Battery in Carry Bag, Charger

Blades: WK2-S, WK3, WK24Z-S, WK24ZR-S, WK27M, WK28M, WK6-M

Cutting Depth Control Arms: WK11AW, WK11BW5, WK11CW, WK11FW

Accessories: WK7, WK8DSM, WK9, WK9B, WK11VEL, WK20, WKGA

ETK12STR E-Tool™ Starter 4 Blade Introduction Toolkit

This Mobile E-Tool kit is ideal for introducing mobile auto glass technicians to the BTB removal system. Contains a small selection of BTB's most used blades and adjustable cutting depth control arms for modern style vehicle glass removals.

KIT CONTENTS:

Power Tool: E-Tool, 12V Battery in Carry Bag, Charger

Blades: WK2-S, WK4Z-S, WK27M, WK28M

Cutting Depth Control Arms: WK11BW5, WK11FW

Accessories: WK7, WK8DSM, WK9, WK11VEL, WKGA

KIT CONTENTS:

- Viper Assembly including socket and ratchet
- Clear Protect -A-Dash
- T-Handle Wire Starter
- Mini Anchor Cup
- 22m Roll of Squire Wire
- Packaged in a foam-lined case.

Why a Cord & Wire Cut-Out Tool?

The auto glass in today's modern vehicles have tighter tolerances between the glass and the body. It is becoming quite impossible on

some vehicles to avoid damage to the pinchweld when removing the glass. Many technicians have started using cut-out wire or cord in an effort to save the pinchweld from possible damage. This will save valuable time in priming and

will prevent rust from forming on missed areas of damage.

Also, cord /wire removal tools reduce physical strain on technician's body compared to other removal tools.

450Lb tensile strength

NEW

SCP-110-OR SwiftCutPro Autoglass Cut-Out Cord
100m Roll - 1.1mm

560Lb tensile strength

SWIFTCUTPRO® is made from synthetics and has a higher tensile strength than steel wire. It is gentle for the car body and will cut through the toughest glues. The cord is coated for identification and lubrication, which results in a long lasting wire and many removals. It doesn't stain, corrode or rust. SWIFTCUTPRO® is compatible with most of the wire-based removal tools available on the market and can be used in a wide variety of cutting jobs. From regular cars to utility vehicles, trucks, busses and even trains and planes.
