

# Safety Data Sheet

Part(s): OZ-SF02 & OZ-SF12 with Sensor Gel Refill Pack (Opaque) - PART A

Version 1.3 (IN)

Print Date 28.04.2023

Date of last alteration: 25.04.2023

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

Commercial product name: OZ-SF02 & OZ-SF12 with Sensor Gel Refill Pack (Opaque) - PART A

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Use of substance / preparation:  
Industrial.  
rubber industry

### 1.3 Details of the supplier of the safety data sheet

ALP OZ Auto Moulds Pty Ltd  
26 Apollo Drive  
Hallam VIC 3803  
T: +61 3 9703 1522  
E: sales@alpoz.com.au

### 1.4 Emergency telephone number

24 HR EMERGENCY TELEPHONE NUMBER — 13 11 26 — Poisons Information Line (Within Australia)

## SECTION 2: Hazards identification

### 2.1 Classification of the substance or mixture

Not a hazardous substance or mixture.

### 2.2 Label elements

No labeling according to GHS required.

### 2.3 Other hazards

No data available.

Endocrine disrupting properties - human health: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

Endocrine disrupting properties - environment: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

## SECTION 3: Composition/information on ingredients

### 3.1 Substances

not applicable

### 3.2 Mixtures

#### 3.2.1 Chemical characteristics

Polydimethylsiloxane with functional groups and auxiliaries for addition cross-linking

#### 3.2.2 Hazardous ingredients

This material does not contain any ingredients above the permitted limit(s).

This product does not contain substances of very high concern (Regulation (EC) No 1907/2006 (REACH), Article 57) in amounts above  $\geq 0.1\%$ .

## SECTION 4: First aid measures

## 4.1 Description of first aid measures

### General information:

In case of accident or if you feel unwell seek medical advice (show label or SDS where possible).

### After contact with the eyes:

Rinse immediately with plenty of water. Seek medical advice in case of continuous irritation.

### After contact with the skin:

Wash with plenty of water or water and soap. In the event of a visible skin change or other complaints, seek medical advice (show label or SDS where possible).

### After inhalation:

Provide fresh air.

### After swallowing:

Give several small portions of water to drink. Do not induce vomiting.

## 4.2 Most important symptoms and effects, both acute and delayed

Any relevant information can be found in other parts of this section.

## 4.3 Indication of any immediate medical attention and special treatment needed

Further toxicology information in section 11 must be observed.

## SECTION 5: Firefighting measures

### 5.1 Extinguishing media

#### Suitable extinguishing media:

alcohol-resistant foam , carbon dioxide , water mist , sprinkler system , sand , extinguishing powder .

#### Extinguishing media which must not be used for safety reasons:

water jet .

### 5.2 Special hazards arising from the substance or mixture

Risk of hazardous gasses or fumes in the event of fire. Exposure to combustion products may be a health hazard! Hazardous combustion products: toxic and very toxic fumes .

### 5.3 Advice for firefighters

#### Special protective equipment for fire fighting:

Use respiratory protection independent of recirculated air. Keep unprotected persons away.

## SECTION 6: Accidental release measures

### 6.1 Personal precautions, protective equipment and emergency procedures

Secure the area. Wear personal protection equipment (see section 8). Keep unprotected persons away. If material is released indicate risk of slipping. Do not walk through spilled material.

### 6.2 Environmental precautions

Prevent material from entering surface waters, drains or sewers and soil. Close leak if possible without risk. Contain any fluid that runs out using suitable material (e.g. earth). Retain contaminated water/extinguishing water. Dispose of in prescribed marked containers. Inform authorities if substance leaks into surface waters, sewerage or ground.

### 6.3 Methods and material for containment and cleaning up

Take up mechanically and dispose of according to local/state/federal regulations. Do not flush away with water. For small amounts: Absorb with a neutral (non-acidic / non-basic) liquid binding material such as diatomaceous earth and dispose of according to government regulations. For large amounts: Liquids may be recovered using suction devices or pumps. If flammable, only air driven or properly rated electrical equipment should be used. Clean any slippery coating that remains using a detergent / soap solution or another biodegradable cleaner. Silicone fluids are slippery; spills are a safety hazard. Apply sand or other inert granular material to improve traction.

## 6.4 Reference to other sections

Relevant information in other sections has to be considered. This applies in particular for information given on personal protective equipment (section 8) and on disposal (section 13).

## SECTION 7: Handling and storage

### 7.1 Precautions for safe handling

#### Precautions for safe handling:

Avoid formation of aerosols. In case of aerosol formation special protective measures are required (exhausting by suction, respiratory protection). Spilled substance increases risk of slipping. Observe information in section 8.

#### Precautions against fire and explosion:

Observe the general rules for fire prevention.

### 7.2 Conditions for safe storage, including any incompatibilities

#### Conditions for storage rooms and vessels:

Observe local/state/federal regulations.

#### Advice for storage of incompatible materials:

Observe local/state/federal regulations.

#### Further information for storage:

Store in a dry and cool place.

### 7.3 Specific end use(s)

No data available.

## SECTION 8: Exposure controls/personal protection

### 8.1 Control parameters

#### Maximum airborne concentrations at the workplace:

Substance	Type	mg/m <sup>3</sup>	ppm	Dust fract.	Fibre/m <sup>3</sup>
Aerosol - inhalable fraction		10,0			

The aerosol limit specified is a recommendation should aerosol be formed during processing.

### 8.2 Exposure controls

#### 8.2.1 Exposure in the work place limited and controlled

#### General protection and hygiene measures:

Observe standard industrial hygiene practices for the handling of chemical substances. Do not eat, drink or smoke when handling.

#### Further information for system design and engineering measures

Observe information in section 7. Observe national regulatory requirements.

#### Personal protection equipment:

##### Respiratory protection

No personal respiratory protective equipment normally required.

In case of mist, spray or aerosol exposure wear suitable personal respiratory protection and protective suit. Suitable respiratory equipment: Filtering half-face mask, according to acknowledged standards such as EN 149.

Recommended Filter type: FFP1 or equivalent filter, according to acknowledged standards such as EN 149

Observe the equipment manufacturer's information and wear time limits for respirators.

##### Eye protection

Recommendation: protective goggles .

##### Hand protection

Use of protective gloves is recommended when handling the material, according to recognized standards such as EN374.

Recommended glove types: Protective gloves made of nitrile rubber

thickness of the material: > 0,1 mm  
Breakthrough time: > 480 min

Recommended glove types: Protective gloves made of butyl rubber  
thickness of the material: > 0,3 mm  
Breakthrough time: > 480 min

Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time. Note that, due to the numerous external influences (such as temperature), a chemically resistant protective glove in daily use may have a service life that is considerably shorter than the measured break through time.

## 8.2.2 Exposure to the environment limited and controlled

Prevent material from entering surface waters, drains or sewers and soil.

## SECTION 9: Physical and chemical properties

### 9.1 Information on basic physical and chemical properties

Property:	Value:	Method:
<b>Appearance</b>		
Physical state .....	liquid	
Colour .....	colorless transparent	
<b>Odour</b>		
Odour .....	odourless	
<b>Odour limit</b>		
Odour limit .....	no data available	
<b>pH-Value</b>		
pH-Value .....	Not applicable. Insoluble in water.	
<b>Melting point/freezing point</b>		
Melting point / melting range .....	no data available	
<b>Initial boiling point and boiling range</b>		
Boiling point / boiling range .....	exempt	
<b>Flash point</b>		
Flash point .....	exempt	
<b>Evaporation rate</b>		
Evaporation rate .....	no data available	
<b>Upper/lower flammability or explosive limits</b>		
Lower explosion limit (LEL) .....	no data available	
Upper explosion limit (UEL) .....	no data available	
<b>Vapour pressure</b>		
Vapour pressure .....	no data available	
<b>Solubility(ies)</b>		
Water solubility / miscibility .....	insoluble	
<b>Vapour density</b>		
Relative gas/vapour density .....	no data available	
<b>Relative Density</b>		
Relative Density .....	0,9 - 1,1 (23 °C) (Water / 4 °C = 1,00)	(DIN 53479)
Density .....	0,9 - 1,1 g/cm <sup>3</sup> (23 °C)	(DIN 53479)
<b>Partition coefficient: n-octanol/water</b>		
Partition coefficient: n-octanol/water .....	not applicable	
<b>Auto-ignition temperature</b>		
Ignition temperature .....	No data available.	
<b>Decomposition temperature</b>		
Thermal decomposition .....	no data available	
<b>Viscosity</b>		
Viscosity (dynamic) .....	500 - 1500 mPa.s at 23 °C	(DIN EN ISO 3219)
Viscosity (kinematic) .....	no data available	
<b>Molecular mass</b>		
Molecular mass .....	not applicable	

# Safety Data Sheet

Part(s): OZ-SF02 & OZ-SF12 with Sensor Gel Refill Pack (Opaque) - PART A

Version 1.3 (IN)

Print Date 28.04.2023

Date of last alteration: 25.04.2023

## Penetrometer test

Penetrometer test.....: 70 - 120 1/10mm

## 9.2 Other information

No data available.

## SECTION 10: Stability and reactivity

### 10.1 – 10.3 Reactivity; Chemical stability; Possibility of hazardous reactions

If stored and handled in accordance with standard industrial practices no hazardous reactions are known.

Relevant information can possibly be found in other parts of this section.

### 10.4 Conditions to avoid

None known.

### 10.5 Incompatible materials

None known.

### 10.6 Hazardous decomposition products

If stored and handled properly: none known. Measurements have shown the formation of small amounts of formaldehyde at temperatures above about 150 °C (302 °F) through oxidation.

## SECTION 11: Toxicological information

### 11.1 Information on toxicological effects

#### 11.1.1 Acute toxicity

##### Product details:

Exposure routes	Result/Effect
Oral	LD50 > 2000 mg/kg Neither mortality nor clinical signs of toxicity were observed with the given dose. Species: Rat, Method: OECD 423, Source: Conclusion by analogy
dermal	LD50 > 2000 mg/kg Species: Rabbit, Source: Expert judgement

#### 11.1.2 Skin corrosion/irritation

##### Product details:

No skin irritation  
(Species: Rabbit, Source: Conclusion by analogy)

#### 11.1.3 Serious eye damage/eye irritation

##### Product details:

No eye irritation  
(Species: Rabbit, Source: Conclusion by analogy)

#### 11.1.4 Respiratory or skin sensitisation

##### Product details:

Exposure routes	Result
Skin contact	Does not cause skin sensitisation. (Species: Guinea pig, Test system: Buehler Test, Method: OECD 406, Source: Conclusion by analogy)
Inhalation	No data available.

#### 11.1.5 Germ cell mutagenicity

##### Assessment:

For this endpoint no toxicological test data is available for the whole product.

## 11.1.6 Carcinogenicity

### Assessment:

For this endpoint no toxicological test data is available for the whole product.

## 11.1.7 Reproductive toxicity

### Assessment:

For this endpoint no toxicological test data is available for the whole product.

## 11.1.8 Specific target organ toxicity - single exposure

### Assessment:

For this endpoint no toxicological test data is available for the whole product.

## 11.1.9 Specific target organ toxicity - repeated exposure

### Assessment:

For this endpoint no toxicological test data is available for the whole product.

## 11.1.10 Aspiration hazard

### Assessment:

For this endpoint no toxicological test data is available for the whole product.

## 11.2 Information on other hazards

### 11.2.1 Endocrine disrupting properties

The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

### 11.2.2 Further toxicological information

None known.

## SECTION 12: Ecological information

### 12.1 Toxicity

#### Assessment:

Evaluation on basis of physical-chemical properties: No expected damaging effects to aquatic organisms.

#### Product details:

Result/Effect	Species/Test system	Source
LL50: > 1000 mg/l (nominal) The effect level is greater than the maximum achievable concentration. The value refers to the water-accommodated fraction (WAF).	static test Fish (96 h)	literature (Polydimethylsiloxane)
EC50: > 0,0001 mg/l (measured) The effect level is greater than the maximum achievable concentration. The value refers to the water-accommodated fraction (WAF).	static test Daphnia magna (Water flea) (48 h)	literature (Polydimethylsiloxane)
IC50 (Growth rate): > 100000 mg/l (nominal) The effect level is greater than the maximum achievable concentration. The value refers to the water-accommodated fraction (WAF).	static test Skeletonema costatum (marine diatom) (72 h)	literature (Polydimethylsiloxane)
NOEC: > 10000 mg/kg	feeding study Oncorhynchus mykiss (rainbow trout) (28 d)	literature (Polydimethylsiloxane)
NOEC (mortality): > 500 mg/kg The exposure to treated sediment did not result in effects.	exposure via sediment Daphnia magna (Water flea) (21 d)	literature (Polydimethylsiloxane)

NOEC (Growth): > 500 mg/kg The exposure to treated sediment did not result in effects.	exposure via sediment Daphnia magna (Water flea) (21 d)	literature (Polydimethylsiloxane)
NOEC (reproduction rate): > 500 mg/kg The exposure to treated sediment did not result in effects.	exposure via sediment Daphnia magna (Water flea) (21 d)	literature (Polydimethylsiloxane)

## 12.2 Persistence and degradability

### Assessment:

Polymer component: biologically not degradable. Elimination by adsorption to activated sludge.

## 12.3 Bioaccumulative potential

### Assessment:

Polymer component: No adverse effects expected.

## 12.4 Mobility in soil

### Assessment:

Polymer component: insoluble in water.

## 12.5 Results of PBT and vPvB assessment

No data available.

## 12.6 Endocrine disrupting properties

The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

## 12.7 Other adverse effects

none known

## SECTION 13: Disposal considerations

### 13.1 Waste treatment methods

#### 13.1.1 Material

##### Recommendation:

Material that cannot be used, reprocessed or recycled should be disposed of in accordance with Federal, State, and local regulations at an approved facility. Depending on the regulations, waste treatment methods may include, e.g., landfill or incineration.

#### 13.1.2 Uncleaned packaging

##### Recommendation:

Completely discharge containers (no tear drops, no powder rest, scraped carefully). Containers may be recycled or re-used. Observe local/state/federal regulations. Uncleaned packaging should be treated with the same precautions as the material.

## SECTION 14: Transport information

### 14.1 – 14.4 UN number; UN proper shipping name; Transport hazard class(es); Packing group

#### Road ADR:

Valuation .....: Not regulated for transport

#### Railway RID:

Valuation .....: Not regulated for transport

#### Transport by sea IMDG-Code:

Valuation .....: Not regulated for transport

#### Air transport ICAO-TI/IATA-DGR:

Valuation .....: Not regulated for transport

## 14.5 Environmental hazards

Hazardous to the environment: no

## 14.6 Special precautions for user

Relevant information in other sections has to be considered.

## 14.7 Transport in bulk according to Annex II of MARPOL and the IBC Code

Bulk transport in tankers is not intended.

## SECTION 15: Regulatory information

### 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

National and local regulations must be observed.

For information on labelling please refer to section 2 of this document.

### 15.2 Details of international registration status

Relevant information about individual substance inventories, where available, is given below.

- Japan ..... : **ENCS** (Handbook of Existing and New Chemical Substances):  
This product is listed in, or complies with, the substance inventory.
- Australia ..... : **AIIC** (Australian Inventory of Industrial Chemicals):  
This product is listed in, or complies with, the substance inventory.
- China..... : **IECSC** (Inventory of Existing Chemical Substances in China):  
This product is listed in, or complies with, the substance inventory.
- Canada ..... : **DSL** (Domestic Substance List):  
This product is listed in, or complies with, the substance inventory.
- Philippines..... : **PICCS** (Philippine Inventory of Chemicals and Chemical Substances):  
This product is listed in, or complies with, the substance inventory.
- United States of America (USA)..... : **TSCA** (Toxic Substance Control Act Chemical Substance Inventory):  
All components of this product are listed as active or are in compliance with the substance inventory.
- Taiwan ..... : **TCSI** (Taiwan Chemical Substance Inventory):  
This product is listed in, or complies with, the substance inventory. General note:  
The Taiwanese chemicals regulation requires a phase 1 registration for TCSI-listed or TCSI-compliant substances if imports to Taiwan or manufacturing in Taiwan exceed the trigger quantity of 100 kg/a (for mixtures to be calculated per each ingredient). It is the duty of the importing/manufacturing legal entity to take care of this obligation.
- European Economic Area (EEA)..... : **REACH** (Regulation (EC) No 1907/2006):  
General note: the registration obligations for substances imported into the EEA or manufactured within the EEA by the supplier mentioned in section 1 are fulfilled by the said supplier. The registration obligations for substances imported into the EEA by customers or other downstream users must be fulfilled by the latter.
- South Korea (Republic of Korea) ..... : **AREC** (Act on Registration and Evaluation of Chemicals; "K-REACH"):  
Please approach your regular contact for more detailed information.

## SECTION 16: Other information

### 16.1 Material

The details in this document are based on the state of our knowledge at the time of revision. They do not constitute an assurance of the described product properties in terms of statutory warranty requirements.

The providing of this document to a recipient does not relieve the recipient of his or her responsibility toward compliance with all laws and stipulations applicable to the product. This applies in particular to the further sale or distribution of the product or substances or items containing the product, in other jurisdictions and with regard to the protection of third-party intellectual property rights. If the described product is processed or mixed with other substances or materials, the details stated in this document cannot be conferred to the resultant new product unless this has been expressly mentioned. If the product is repackaged, the recipient is obligated to additionally provide the required safety-related information.

WACKER restricts the use of its products inside the human body or in contact with bodily fluids and mucosa. For further details please review our Health Care Policy on [www.wacker.com](http://www.wacker.com). WACKER may cancel any delivery obligation(s) if the Health Care Policy is not observed.

### 16.2 Further information:

Commas appearing in numerical data denote a decimal point. Vertical lines in the left-hand margin indicate changes compared with the previous version. This version supersedes all previous versions.

- End of Safety Data Sheet -
